## OUR TRADERS SAY

I'd been reading about crypto for ages but never pulled the trigger – too many dodgy-looking platforms out there. A mate at work pointed me to Hawk Credpeak, so I gave it a go. Registration took about two minutes, the fee breakdown is right there on the dashboard, and when I had a question about deposits, support sorted it out within the hour. Pretty happy so far.

**Liam Baxter, Perth**

I started using Hawk Credpeak after my partner and I decided to set aside a small amount each month for something other than our savings account. Neither of us had traded before, but the interface made it easy to get our heads around. The demo account was helpful for building confidence before putting real money in.

**Priya Narayan, Melbourne**

I'm a shift worker, so I needed something I could check on my phone between rosters without spending hours glued to a screen. Hawk Credpeak fits the bill – the layout is clean, the fees are upfront, and I can see exactly what's happening with my trades at a glance. Support was quick the one time I needed them.

**Tom Gallagher, Adelaide**

After years of just keeping money in a term deposit, I wanted to learn more about crypto without jumping in too deep. Hawk Credpeak let me start with a small amount and work things out at my own pace. The platform feels straightforward and I haven't come across any surprise charges, which was my biggest concern going in.

**Chloe Whitfield, Hobart**
