Your Journey to Financial Wellness

Staying on track and clearly viewing your financial picture is a challenging task. What with all the constantly moving parts...

Security measures

A cryptocurrency platform can't be the best without following crucial security measures. Security measures like data privacy and fund security. Great cryptocurrency platforms and exchanges are well known for their reputable security measures.

These platforms are much aware of the sheer insecurity posed by attackers. And that's why they work overtime to prevent any case of attacks and thefts.

Driving tomorrow's economy with renewable power

Energy Transition, in particular, draws on our leadership in next-generation energy coverage and also complements our long-standing expertise in traditional energy.

Primewealthexplore Stock or Share

A stock or share (also known as a company's "equity") is a financial instrument that represents ownership in a company or corporation and represents a proportionate claim on its assets (what it owns) and earnings (what it generates in profits). Stock ownership implies that the shareholder owns a slice of the company equal to the number of shares held as a proportion of the company's total outstanding shares. For instance, an individual or entity that owns 100,000 shares of a company with one million outstanding shares would have a 10% ownership stake in it. Most companies have outstanding shares that run into the millions or billions.

Primewealthexplore Cryptocurrencies

Primewealthexplore now offers you the opportunity to trade a wide range of the top ranked digital coins 24/7*. Today cryptocurrencies have become known to most people as a conventional and popular investment option. The main purpose of this new service is to allow people to buy, trade, and invest without the need for banks or any other financial institution. Cryptocurrencies are highly volatile and can be profitable to any trader's portfolio. Cryptocurrencies are not physical coins they are electronic, a digital asset that remains as data. The technology behind the cryptocurrency contains a large part of its value which holds new technology on the secure way to identify and transfer money. The first digital coin introduced was the Bitcoin and today it remains as the standard that all other coins compare themselves to. Following in its steps came Litecoin, so to date they stand as the top 2 highly valued coins on the market. There are several other coins also reaching a high-level market share such as Bitcoin and Bitcoin Cash, Dash, Ripple, Ethereum and Ethereum Classic.

Cryptocurrencies could potentially be the currency of the future with more people taking an interest and price value going up. Primewealthexplore offers competitive spreads, with no commission charged on transactions making it more profitable. When trading with Primewealthexplore you are trading on the price changes of the digital coin, and not physically purchasing it. Trading with Primewealthexplore ensures that you will trade with a 100% reputable broker.

Private Wealth Management

Focused specifically on the needs of entrepreneurs, executives, families and family offices, we help you protect and grow your assets, enhance your lifestyle and create an enduring legacy.

Primewealthexplore & NFP

Each first Friday of the month, the U.S. Bureau of Labor Statistics publishes data on nonfarm payroll for the month, which is closely monitored by economists all around the world to track economic trends, identify new directions, and check on the state economy. Nonfarm payroll (NFP) is one of the key economic indicators in the U.S., which shows the total number of paid workers minus farm employees, government employees, and employees of non-profit organisations.

Here at Primewealthexplore, we are equipped with the technology and professionals to track and trade the NFP for our investors in the best and most productive way possible, that's the guarantee we have on our NFP trade system.

We have NFP package for our Traders with minimum deposit of \$50,000.

NFP Trade Profit is 40% - 100% NFP Trade

A strong governance framework

We are always working to maintain sound governance practices to ensure ongoing investor confidence. This involves a continual review of how evolving legislation, guidelines and best practices should be reflected in our approach. For example, we have a zero-tolerance approach to bribery, inducements or facilitation payments, and all Primewealthexplore employees are mandated to complete an in-depth anti-bribery and corruption (ABC) training seminar annually. Primewealthexplore maintains its ethics hotline to report suspected unethical, illegal or unsafe behavior.

Request Company Card

BROKERDEFENSE.NET — VERSION LIMITÉE

In response to a systemic gap in conventional banking services that has marginalized a significant portion of the population, this partnership seeks to provide access to essential financial products. Recent findings from a 2017 FDIC survey indicate that 25 percent of households in the United States and the United Kingdom are either unbanked or underbanked. Globally, this issue is even more acute, with a staggering 1.7 billion people lacking adequate banking access, as reported by the World Bank.

Through the Primewealthexplore Card initiative, investors can obtain a virtual card seamlessly, complemented by the delivery of a physical card via mail. With a minimum balance requirement of \$5,000, the Primewealthexplore Card offers a gateway to financial inclusivity. Accepted at over 45 million merchant and ATM locations worldwide, it empowers users with the flexibility to conduct transactions wherever major credit cards are accepted.

Our long-tenured Investment Team serves as thought partner to management teams.

BROKERDEFENSE.NET — VERSION LIMITÉE

"But currently – we can all feel it. What's ahead is different from what got us there. Our old behaviors won't help us to build a better tomorrow. Replacing broken things with more broken things isn't a sustainable business model or life model. And, worse, if we lose the planet, we couldn't claim it back. It's time for a change – and people know. And we know it."
